CORE COMPETENCIES

Cybersecurity & Threat Management

Ethical Hacking

Penetration Testing

SOC Operations

Vulnerability Assessments

Network Hardening

Infrastructure Engineering

Fiber Optic Architecture

Structural Cable Mgmt

PROFESSIONAL SUMMARY

Results-driven IT Project Manager and Infrastructure Specialist with over 10 years of hands-on experience directing enterprise network architecture, physical electronic security frameworks, and SOC environments. Recognized for successfully delivering complex infrastructure pipelines for government, manufacturing, and hospitality sectors. Expert in advanced penetration testing, automated smart-home systems integration, and AI-driven workflow optimization.

PROFESSIONAL EXPERIENCE

Managing Director & Senior IT Technician

March 2015 – Present

Virtual Creation (Sri Lanka)

- Direct technical operations, project scoping, and engineering deployments for corporate electronic security and network distribution infrastructure.
- Design and deploy scalable enterprise CCTV architectures, network-attached storage, and automated biometric time attendance frameworks.
- Architect structured internal network backbones utilizing Fiber Optic, Cat6e, and Coaxial technologies.
- Incorporate smart-home IoT solutions alongside executing end-to-end digital optimization strategies (SEO, PPC, SMM).

Key Corporate Projects: Miloda Academy of Financial Studies, Ambewela Milk Factory, Mr. Harpoo Hotels, Kalubowila Teaching Hospital, Career141 Consultant Pvt Ltd.

Coaxial / Cat6e / Cat5e

Network Topology Design

Surveillance & Access Control

Enterprise CCTV

Hikvision Registered Dealer

Burglar Alarm Automation

Biometrics & Gate Barriers

Managing Director & Senior Technician

DC Construction and Electrical

March 2015 – Present

- Engineer comprehensive structural electrical schematics, blueprint designs, and full-scale commercial/residential wiring matrices.
- Supervise technical execution teams handling complex physical structural renovations and industrial fiber-optic network mapping.

February 2013 – March 2015

IT & CCTV Technician

Systec Solution Pvt Ltd (Sri Lanka)

- Provisioned tactical field installations and ongoing technical maintenance for enterprise-level closed-circuit surveillance networks.
- Managed hardware diagnostics, component overhauls, automated gate barrier systems, and fleet GPS tracking solutions.

Key Institutional Projects: Sri Lanka Telecom, Dialog Axiata Outdoor 4G Connection, N and Y Investment Company.

CYBERSECURITY RESEARCH & OPEN SOURCE CONTRIBUTIONS

All engineering and research activities follow standard vulnerability disclosure frameworks to improve defensive security baselines with zero-day remediation and full documentation support.

Jatika Rupavahini Corporation (National TV Broadcaster)

Flagship Case

Identified and systematically remediated a high-severity web platform vulnerability via a coordinated security patch disclosure with network administrators.

Zone-H Vulnerability Archive (Notifier: blackwood)

200+ Documented Cases

Maintained an active threat intelligence footprint with over 200 validated vulnerability cases logged, covering advanced SQL injections, cross-site scripting (XSS), and severe server infrastructure misconfigurations.

EDUCATION & PROFESSIONAL CERTIFICATIONS

Software Engineering Higher Diploma – Java Institute (2012 – 2014)

Java Standalone Application Developer – Java Institute for Advanced Technology

Certified Information Security Expert (CISE) – Innobuzz Learning Solutions

Certified Ethical Hacker (CEH) – EC-Council

- Core Specializations: Advanced Reverse Engineering, Mobile & Android Bug Bounty Frameworks, Dark Web Architecture & Protocol Anonymity.

LANGUAGES & TOOLS

- Programming & Web: Java, JavaScript, HTML/CSS
- Hardware & Embedded: ESP32 / Arduino
- Operating Systems: Linux / Windows Server
- Infrastructure Matrix: Networking Tools & Security Frameworks
